PROMEDIA VIDEO SERVICES EXPANDS TO BRICK-AND-MORTAR STORE

SUFFOLK, Virginia (September 19, 2018) – A new business has outgrown its home-based services and expanded into a new storefront location in Suffolk. ProMedia Video Services has opened at 5501 Bennetts Pasture Road, Suite F, just off of Bridge Road/Route 17. To celebrate, they are hosting a Grand Opening – Ribbon Cutting ceremony on Thursday, September 20th at 4 p.m. Mayor Linda T. Johnson will be on hand for the event.

ProMedia Services specializes in media transfers and video production. They can transfer media such as home movies from 8mm, Super 8 and 16 mm to DVD, digital or cloud formats. Video tape transfers are a popular service as well. Expert staff can also provide video production skills to document

events such as weddings, advertising design, create aerial (drone) videos, audio transfers, video editing and video tape repair.

Owner Art Bradshaw decided to open his first brick-and-mortar location because demand for his team's services required more space than his home-based business could support. Customers can schedule appointments or walk – in to discuss their needs. Hours of operation are Monday through Friday from 10 AM

to 6 PM. Learn more about their production services at <https://www.facebook.com/ProMediaVideoServices/>.
