Westside Burgers to Open Soon in Bridgeport, Serving Classic American Dishes

SUFFOLK, Virginia (May 16, 2023) – A new family dinner staple is coming to the Bridgeport mixed-use development in Suffolk. Westside Burgers is a diner offering burgers and fries for customers in a lively atmosphere with a western theme. Westside Burgers will serve classic American dishes, including burgers, kosher hot dogs, French fries, mozzarella sticks, wings, and more. The menu features only Virginia-raised beef in its burgers, ensuring that customers will taste the freshest, highest quality beef, while supporting ranchers in our state.

Westside's goal is to provide a unique and vibrant atmosphere perfect for those who love to unwind and relax with good food and drinks. The diner will offer both tableside service and takeout, making it easy and convenient for customers to enjoy their favorite meals wherever they choose to dine.

Westside will seat 80 guests indoors and approximately 66 in the fenced outdoor area, with a combined size of 10,200 square feet. The restaurant is designed to create a fun and welcoming environment where families can enjoy quality time together.

"We are thrilled to bring Westside to Bridgeport and offer our customers a fun and exciting dining experience," said Chandler Cutright, Co-Operations Manager of Westside. "Our team is dedicated to providing the best food, service, and good time to our community, always highlighting our customers and providing consistency through hard work, and dependability."

Follow along as Westside Burgers prepares for their Summer 2023 opening by visiting their [website](#), [Facebook](#), or [Instagram](#).
